Note: Invoice can be provided upon request.

We are very excited to report that together we can make a difference and so we are again hosting educational and networking events around the state. Please join us in making our events a success.

We want to reach out to you and your company and invite you to join our **Masonry Mission** that is to increase the use of masonry products and applications through innovation and education.

(NOTE: We are proud of providing AIA CDU Educational Credits but as with any non-profit educational organization, we need your support to be even more successful in making positive strides on our industry)

**Our goal** is to communicate the attributes of masonry in safety, sustainability, life cycle savings, environmental soundness, regional product manufacturing, skilled installation, technical resources, and the variety of modern and traditional aesthetic opportunities coupled with centuries' proven durability.

Please join us in our quest to increase the masonry's market share.
